

BANAJA ROUT

Data Analyst

Phone: 9040193704, Email: banajarout.rout@gmail.com, GitHub: github.com/banajarout

Location: Odisha, India

OBJECTIVE

Computer Science graduate with knowledge of Python, Pandas, Excel, and data visualization. Experienced in data cleaning, analysis, and dashboard creation through academic projects and internship training. Passionate about transforming raw data into meaningful insights to support business decision-making.

EDUCATION

KMBB COLLEGE OF ENGINEERING AND TECHNOLOGY

B.tech-Computer Science - 8.18 CGPA

2022-2026

DR. HK MAHATAB COLLEGE

Higher Secondary - 84%

2020-2022

SKILLS

Technical Skills

- Python (Pandas, NumPy, Matplotlib)
- SQL
- Power BI
- Microsoft Excel

Core Skills

- Data Cleaning
- Data Analysis
- Data Visualization
- Dashboard Creation

Soft Skills

- Communication Skill
- Team Work

INTERNSHIP

Python Data Science Intern - Pyspider

- Worked on data cleaning and preprocessing using Python (Pandas, NumPy)
- Performed exploratory data analysis (EDA) to identify patterns and trends
- Created data visualizations using Matplotlib for better insights
- Gained hands-on experience in handling real-world datasets

LANGUAGES

- English
- Hindi
- Odia

PROJECTS

- Hospital ER Dashboard | Power BI

Built an interactive ER dashboard to analyze patient flow, waiting time, admissions, and treatment performance. Created KPIs, DAX measures, and visual reports for data-driven insights.

- UNESCO World Heritage Dashboard | Power BI

Developed a dashboard to analyze UNESCO heritage sites by country, category, and region.

Designed interactive visualizations and maps to identify global heritage trends.

- TrendSense | Python & Machine Learning

Built a sentiment analysis model to classify social media feedback.

Applied data preprocessing, machine learning, and visualization techniques to generate insights.

WORK EXPERIENCE

- Fresher

Additional Information:

- Strong interest in Data Analytics and Business Intelligence
- Familiar with real-world dataset analysis and visualization
- Continuously learning new tools and techniques in data analysis
